## **Technology Platform- Minor Permission Form**

We, Doan Dominico Savio, request that you allow your child to participate in Teams, Zoom, Facebook, Instagram, and Remind. The technology platform will allow us to minister to your child. The technology platform will be used only to provide information related to the group/ministry, such as group meetings, reminders, event information and other updates. As a parent/guardian of a member of the program, you will receive the same communication provided to your child. If a virtual meeting will happen, you will be notified in advance when the meeting will occur.

I give permission for my child to participate in the technology platform set forth by the Parish/School Administration.

By signing below, I am agreeing that I, as the parent/guardian, and my child will use the technology platform appropriately. I understand any inappropriate use of the technology platform will cause a user to be removed from the group or lose its ability to access the platform.

This platform is valid for one academic year.
